Accredited Safety Training on a plate

We believe in professional safety qualifications act as a gateway to professional membership and continuous professional development (CPD). That's why we are offering 1 year paid for membership of the world's leading safety membership body – the institution of Occupational Safety and Health (IOSH) at Affiliate level with IOSH CPD points available for IOSH Managing Safely graduates and the opportunity of professional upgrade to TechIOSH (Technician Level) for NEBOSH graduates and GRADIOSH and CMIOSH level for Diploma graduates.

To aid flexibility we can offer a choice of classroom, e-learning or blended training to help candidates achieve the qualification they want within the time constraints and budgets they can spare.

We can offer a full UK and International Coverage for accredited e-learning courses and offer training at comfortable hotel locations across the UK including: Cardiff, Exeter, Basingstoke, Camberley, Crawley, Redhill, Enfield, Southend, Basildon, Milton Keynes, Northampton, Coventry, Birmingham, Derby, York, Doncaster, Stockport, Manchester, Bolton and Liverpool. All blended and classroom training comes with a sumptuous lunch to aid the learning process.
